Work Experiences

Xcentric Services
React JS & Node JS Developer
May 2022 to Present

Working in Xcentric is a great Experience. I worked on an amazing architecture here developed **MetroB2B and B2C** using it. Worked on valuable business logics here.

ScaleX Solution
React JS Developer
December 2021 to 31 April 2022

At ScaleX, my responsibilities were pretty concise. I was working on agile Methodology so; I had to complete daily tasks assigned to me at scrum meetings by superior. Due to my good analytical skills decent knowledge of react js and its structures, the whole project was assigned to me. I was responsible for every module and implementation regarding that project.

Savvy Programmers
Frontend Developer Intern
October 2021 to 01 December 2021

At Savvy Programers, I worked as a Frontend developer and work in a team under the superior and complete my daily task assigned to me on jira.

Freelancing

I keep on working on different small and medium size projects to make my communication and learning skills up to date. As a freelancer I get chance to work with different clients and worked on many frontend projects.

• POS System

POS system maintains the products record and its sale and purchase and ring up sales for customer. Designed and developed a POS system specifically for pharmaceutical business to streamline inventory management and sales process. Created a reports that describe which medicine selling and when they expires.Designed alerts to remind when to order more medicine and they are getting short..
Developed using React JS, Redux Think

Skills & Tools

React JS (Redux-toolkit/Redux-thunk , React-Navigation, DOM Concepts, Firebase Analytics, Dengage, TCS Integration,GA-4, Payment Gateways (Jazzcash & Bank Alflah) and some other 3rd party libraries such as moment js and many others)

Node JS (async/await, promises, encryptions/encodings JWT, Bcrypt and some other core concepts.)

SQL & NOSQL Databases (database design, query optimization, data modeling, writing complex queries, Indexing, Views, Read Replica)

Soft Skills | Proficiency in English & Urdu, Good Communication skill, problem solving skill, Adaptability for new technologies, time management.

Areas of Interests

Understanding and working upon the execution processes of technologies. Deep interest for solving real life problems with technology and code. Try to work on new and unique ideas implementation.

Education

ADP in Computer Science
Virtual University of Pakistan

Certifications

• Mern Stack Developer   (EVS)

• React JS BootCamp   (Udemy)

• Modern JS BootCamp   (Udemy)
